20 November 1961

MEMORANDUM FOR THE DIRECTOR OF ADMINISTRATION

SUBJECT: SAINT - FY 1963

The attached sheet from AID(Comptroller) presents an alternative in which SAINT would be reduced from \$40 million to \$36 million in FY 1963

This \$4 million is required for System Studies and development of long lead time components. It has always been a part of the development plan approved by DPMAS on 25 August 1960. Although no operational deployment is presently under consideration, it has always been deemed desirable to authorize a small amount of work on studies and components which look beyond the feasibility demonstration

Recommend that the DPMAS figure of \$40 million be held to.
